### **PART IV: DISTRICT 5 DELEGATE VACANCY**

Please state why you wish to serve as the Maryland State Delegate for District 5. Confine your response to 500 words or less.

I have been active in politics almost all of my life. When I was in High School and studied Civics and the two Party system of government, Maryland wasn't so I became a Republican. Then I went to college and studied Economics I knew why I was a Republican.

Throughout my political life it was never my goal to run for office, I always worked for other people.

Then a position on the Carroll County Republican Central Committee opened up and I requested to be appointed. I was appointed and ran for the office the next election cycle and was successful.

Being on Central Committee gave me a closer look at after election political responsibilities and activities.

With the opening of the Delegate vacancy in District 5 I see an opportunity to use my experience and abilities to work to pass legislation that will benefit the citizens of Maryland and to try to prevent the passage of legislation that will harm the citizens.

I am retired and in the economic position to be a full time legislator.

I have traveled to Annapolis for many years to testify at Bill Hearings and would like the opportunity to have a more direct effect on the legislative process.

If appointed as the Maryland State Delegate for District 5, do you intend to run for

**PART VII: STANCE ON ISSUES**

- 1. Please describe what you believe is the role of government**

**I believe the role of government is to secure the rights and freedoms of individual citizens as set forth in the Preamble to the Constitution.**

- 2. Please explain your economic views and major economic influences**

**Free Market Capitalism has made the United States the most prosperous country in the world. The law of supply and demand is more productive than any government planning can ever be.**

**When I took a Civics Course in Junior High School I learned about the two party system when I realized Maryland wasn't, I decided to become a Republican I went on to college and studied economics and then I knew why I was a Republican.**

**3. What is your position on gun control and the Second Amendment**

**I oppose any form of government sponsored gun control and was a founding member of Maryland Shall Issue an organization established to support "Shall Issue Conceal Carry" in Maryland.**

**I am an NRA Life member.**

**4. What is your position on abortion and euthanasia**

**I oppose both abortion and euthanasia. It's a child not a choice. Government sponsored euthanasia would begin the slippery slope of government deciding matters of life and death. Ending of a human life should not be a medical decision.**

**5. What is your position on taxes**

**The power to tax is the power to control. I believe the role of government is limited and taxes should be kept low to keep government and government spending low. Those best able to make decisions on how their money should be spent are the people that earned it.**

**Free Market Capitalism is the best economic system to provide jobs and a strong economy.**

**I will sign the No Tax Pledge.**

**6. What is your position on common core**

**I support local control of education. The word education is not found anywhere in the U.S. Constitution and therefore is the responsibility of the states. The best solution to an issue is that which is closest to the issue.**

**Common Core is an attempt of Federal Government control of Education.**

**"That which is taught in the public schools in one generation is public policy in the next generation."**

**7. How would you work to create jobs**

**It is not the job of government to create jobs. The best way to create jobs is by Free Market Capitalism. Thoughtout history government planning has never provided for the needs and wants of its people and it never will.**

**8. Please explain your position on "Obamacare" and healthcare in general**

**The word Healthcare is found nowhere in the U.S. Constitution. Providing healthcare is not the role of government.**

**A few ways to improve Health care in Maryland and the Country are:**

**\*Reduce the cost of defensive medicine by reducing frivolous lawsuits.**

**\*Eliminate regulations that prevent health insurance companies from competing across state lines.**

**\*Free market competition will drive costs downward providing consumers have the information they need to shop around.**

- 9. What is your stance on converting from a commissioner form of government to a county executive form of government**

**I am in favor of smaller limited county government. Going from a commissioner form of government to a county executive would add to bureaucracy, more government and more government spending and result in higher taxes.**
