## **PART VII: STANCE ON ISSUES**

### **1. Please describe what you believe is the role of government**

- a. To protect the individuals rights and safety with as little interaction as possible.

### **2. Please explain your economic views and major economic influences**

- a. A Free Market will regulate itself when free of intervention and a solid infrastructure is in place (Public works, internet, etc.)
- b. Farming and small businesses make up a majority of Carroll County and have helped shape what I have become today. Diverse industries create diverse and educated employees which, in turn, creates wealthy and happy citizens.

### **3. What is your position on gun control and the Second Amendment**

- a. Pro Second Amendment.

### **4. What is your position on abortion and euthanasia**

- a. A woman should be allowed to make their own choices about their body and a safe environment should exist to do so without financial burden from those that do not agree.
- b. Regarding euthanasia, if an individual decides to partake and a registered medical facility is willing to assist, a person should be able to decide for themselves if they want to go this route if there are no other sensible options available.

### **5. What is your position on taxes**

- a. To be used efficiently and effectively for preserving the rights of individuals and the environment that has helped us become what we are today.

### **6. What is your position on common core**

- a. From the very beginning, teachers are taught how to best teach our youth. Students should not be boiled down to a number or statistic. To do so, this can hold back the brightest for the sake of numbers. Teachers should have the choice with limited guidelines on how to make Maryland continue to have the best education system in the US.

### **7. How would you work to create jobs**

- a. Provide financial incentives for all types of companies, especially small businesses, while focusing on having them locate in Carroll County and Maryland. In order to make our environment even more attractive for companies to move into the county, an infrastructure should be updated and maintained with either private companies created to run these processes or push more funds to government departments that can keep up properly with the work required.

**8. Please explain your position on Obamacare and healthcare in general**

- a. While created with good intentions, the Obamacare Act was hastily passed which did not allow for an adequate period of time for research on how to help individuals and a free market society, not tax individuals for not choosing to be involved. With the upcoming Supreme Court ruling, they could rule that Premium Subsidies be eliminated and cause it to be unaffordable and place undue hardship on those who it was intended to help.

**9. What is your stance on converting from a commissioner form of government to a county executive form of government**

- a. A single county executive form on local government would not work very well in Carroll County. Due to the widely diverse economic climates, large towns such as Westminster and Mt. Airy would have different needs and views on what is good for the county as opposed to the rest of our more rural areas. We must have equal representation for all areas of Carroll County.
